**Description of Operation:**

Thanh Le is observing the pile driving of the last two piles with Gina Rizzardo. Thanh is observing the PDA operator while Gina is counting hammer blows along side the Geotechnical engineer for Klohn Crippen Berger, Manuel Reyes during the re-tapping of the South frame piles. Gina and Thanh will have the detailed diaries for this operation. I was informed that the contractor was able to re-tap the final 7 piles today and got similar results to the single pile they re-tapped yesterday. Some were acceptable during the first 75 mm of driving while others had to go multiple 75 mm sections to achieve proper refusal.

The Western Gull and its hatchling continue to inhabit the nest on the Southwest corner of the T1 footing and the fledgling is walking around.

OVERTIME: Accrued 1 hour of overtime covering the contractors operations.
