**Weather:** Sunny Morning, wind low to high, High 75 F Low 64 F.

**Description of Operation:**

This was an off day. There were a few visitors from Sacramento to show the ASCE seminar attendees on Orthotropic Bridges.

Rick Morrow had permitted to bring the visitors to the site. Bart Ney and Heather of the Public Information Bureau had given the key to their office to show them the model.

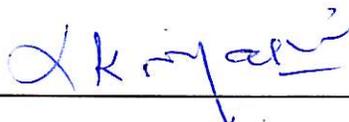

The visitors supposed to be here by 4 PM actually arrived 5:15 PM. Dhowed them the models in the PIO office and gave a tour the construction activities at the YBI.

No construction activities were going on.

The Security patrol was apparently not informed by PIO people about the visitors and were cooperative.

I charged total 5 hours to OT
