REMARKS

Check PMIV for pending submittals and Lotus Notes for RFI's. Receive TRN-1369R00.

TT "A & B" - W-line, Splice W1 - W3. Erect South Truss. Per CRANE load read-out the Truss weighs 58.5 ton. Deliver a load of Truss members.

Start working on erected Truss Walkways. James (Smith-Emery) an ABF QC inspector on-site all day.

TT "C" - foundation.

SAFETY. Asked Danny if he had any plan-details of FLOATS, If it was okay to have 2 people to tie of to the same life line.

Danny informed me that the FLOATS design comes out of the CALOSHA safety order and the life-line was designed for 2 people for each span.

Life-line is a 1/2 inch steel wire-rope with 3-CROSBY clips at each end. The 1/2 in wire rope in above case passes through 3 - 1-1/4" Eye-Bolts spaced at 4, 6, 6 meter. He also told me that in this case they could have a total of 8-people on the same life-line. Also if I had any more questions, I need to contact John Callaghan.

2 hr OT.
