Description of Operation:

I was not here last Thursday and Friday. I was informed this morning during the 8:00 am meeting that the second re-tap of the North piles will happen this afternoon. Thanh Le and Gina Rizzardo are out in the field getting the data from the pile driving and they will have the diary for the labor and equipment, as well as some of the information regarding the driving information.

I generated a response to Scott Tudor's letter that Brian Peterson sent to Gary Pursell, detailing the complaints that ABF has over Caltrans' inspectors. After finalizing it, I sent it to Gilrel Klebanov.

In the afternoon I got caught up on diaries and Lotus Notes emails I accrued while being gone Thursday and Friday.

The tugboat Becky T, Captain Frank Wouters, and Deck Hand Matt Morton spent 2 hours touring the job site on the water covering T1, E2, and the moorings out in the bay. They circle the areas looking for nesting birds, or evidence of a nest as called for in the Special Provisions and compensated by CCO 13 of this contract.

The Western Gull fledgling is still walking around, and has been seen stretching its wings in preparation for flight.

OVERTIME: No overtime today.

Inspector:

Jason Wilcox

Transportation Engineer (D)/Asst. Structure Rep.
