REC'D 09 JAN 05 #008170

**Description of Operation:**

Gina Rizzardo is observing the operations of the contractor today at pier 7. They are still assembling the South node of the Tower D driving frame. They continue to use their jacks to position the pieces together. They will need to field drill holes into the components using the splice plates as a template.

Throughout the day I reviewed the work plans and the plans sheets to make sure the installation of the South node of the Tower F driving frame goes according to plans. I got together with Mark Vilcheck to make a schedule for our workers to ensure that there is coverage in the field in the upcoming month.

In the afternoon I attended the 1:30 PM construction meeting. Details can be found in the meeting minutes.

Tomorrow I will go to the fabricators shop on Mare Island, XKT, to observe their working staff and speak with them as to what they plan to do now that there is an acceleration to their fabrication. I spoke with John Callaghan and made our meeting time to be 8:00 AM.

OVERTIME: No overtime accrued today.

**Inspector:**

Jason Wilcox  Transportation Engineer (D)/Asst. Structure Rep.
