Description of Operation:
Erect Temporary Towers: Tower F Driving Frame Assembly

The crew of the DB_5 is assembling the North driving frame for Tower F. Gina Rizzardo will have the detailed diary for the day including labor and equipment.
Gina let me know that they were drilling and bolting some of the connections on the bottom chords between the North portion of the bolted connection locations. They are also placing one of the diagonal connectors as well.

Attended the 8:00 Safety meeting this morning. For the rest of the morning and into the afternoon I reviewed diaries and finalized my own diaries.

OVERTIME: No overtime today because the Contractor is working a half day.

Inspector:

Jason Wilcox  Transportation Engineer (D)/Asst. Structure Rep.
