For ABF equipment/personnel hours, please see Pamela Gagnier's and Lalit Mathur's diaries.

weekly internal meeting with Gil (Senior). Discussed progress for W2/E2/temp towers. Gil took names for those that will be available for the concrete pour at E2 Dec 5th. Masoud does not think that ABF will make the deadline for the concrete pour.

At W2, the sandblasting operation continues and is progressing smoothly.

I noticed two ironworkers eating sunflower seeds and told them not to spit the shells into the form. They disregarded me and seconds later, spat into the forms. I found Nigel (ABF) and asked him to tell them not to spit into the forms.

I recall Terry (ABF general foreman) yelling at one of the crew for eating sunflower seeds within the forms.

I returned two of the concrete cylinder racks for transporting to Sacramento - back to the cure room.

I uploaded photos that I took of the turbidity problem at Temp Tower C where they are excavating.

In the office, I re-printed two diaries that disappeared from Lalit's designated diary tray.

I also worked on a thermal control graph/chart for E2.
