DAILY REPORT

Report
No. 45.

Date: January 3, 2007

January 02, 2007 – Clear, cool

Worked on draft reply to Contractor's letter #93 on crossbeam geometry and bend location. Sent out for discussion. Called Ade Akinsanye to discuss the specification changes proposed for the Temporary tower design criteria. I asked him to discuss with Brian Maroney and get back to me. Discussed submittal reply letters with Stan Ku, Chris Have, and Gary Pursell. Need to have all comments combined before sending back to the Contractor – not METS or TYLin or CT Const comments separately.

January 3, 2007 – Overcast, cool

Siegenthaler Staff meeting cancelled for today. Heard back by email from Ade on the temporary tower specs. He is OK with them as they stand. I sent them by email to Ron Crockett of ABF to look at.
