Rick Morrow's

Report No. 45

SFOBB East-Span
Seismic Retrofit
Project (SAS)

Resident Engineer
(Field)

Date: June 01, 2007

DAILY REPORT

May 28, 2007 Clear
Holiday

May 29, 2007 Slight overcast in AM, Clear
No meetings scheduled today
Discussed E2 work and last Friday meeting with Lee Zinc with Woods and Vilcheck. Also discussed E2 column resteel alignment and possible CCO work.

May 30, 2007 – Clear
Core team meeting at 0900
Future meetings will have the large core group on the first Wed. and the Team leaders in on the 3rd Wed.
WQCP at ZPMC still 1-2 weeks out Meeting held in China on 5/25 to go over WQCP comments from last March.
Report that ZPMC has 5000T of steel on hand and 20,000T ordered. Not well tracked or documented at this time.
Will need to be before any MOH can be paid. ABF says ZPMC want to start tower work and wants the shop drawings approved. Agreed that they need WQCP approval and mockup completion first. ABF looking to get more qualified QC people for China.
TYL asked when Tower shop drawings would be submitted. Many sheets (1200) expected and very few RFIs received. Date given at team meetings keeps slipping.
Discussed MEP continuing issues. Mentioned issue of conflict with crossbeam and access platform at PP40. (later agreed that it is not a conflict to build, but may not be to code for access)
ABF looking to get CCO numbers assigned for the 19 items in the RFI 1-429 list that will be CCOs but that no number has yet been assigned to.

May 31, 2007 – fair – breezy
Safety Mtg 0800 on foot safety
0900 China communication meeting with Dan Speer on the phone. Discussed METS procedures and roles.
Discussion of procedures in China wrt NCRs, spec interpretations, etc.
SAS BBQ held 1130-1300
Great!
Marwan dropped off a proposal for a CCO to revise the wind vortex plates from Plexiglas to steel.

June 1, 2007
Gave a copy of the Wind vortex proposal to Brian Boal to review and took a copy to Bill Zanetich in Str. Maint. to look over as well.
