At Pier E2, the work of dis-assembling the falsework continues on the footing.

The word came in this morning that the grouting operation that had been moved-up two days to happen today, is now scheduled to take place on Thursday after all-as originally planned.

I reviewed ABF/SDI's grouting plan and found out that they are planning to use the same product-SikaGrout 300PT- as they used at Pier E2.
