		Traylor Dutra									
REMARKS											
Name Contractor											

Description of Operation:

Erect Temporary Truss and Towers: Bolting Trusses E-Line and W-Line and Installing Towers at TTGS

FIELD WORK:

The middle assembly of the West Tower at Temp Tower G South was completed today. Not all of the bolts were secured, but the segment is in position. Bolting of the Trusses on both the East and West line are on going as well.

Masoud Modanlou and Thanh Le are observing the field work at the trusses and tower erection respectively. They will have the detailed diaries for the day.

OFFICE WORK:

- Diaries
- Update Temp Tower Foundation folders
- Update Temp Tower drawings folder
- Reviewed the plans and Special Provisions

CONVERSATIONS:

While reviewing the Special Provisions I noticed that under 10-1.41 TEMPORARY TOWERS – DRIVEN PILING – Bearing Criteria, it says, " The Contractor shall provide a pile driving log at the completion of driving each pile and with the notification of driving refusal." I asked Scott Tudor if they

received anything from Klohn Crippen Berger regarding this and he said they had received it, but had not sent it over to us yet. He directed me to Bill O'Sullivan for more details. Upon asking Bill, he said that they have the information and will compile it and include it in the submittal accepting the work done by Traylor Dutra, or the Temp Tower Foundations.

OVERTIME: No overtime today.

Inspector:

Jason Wilcox
