ASSISTANT RESIDENT ENGINEER'S

CONTRACTOR – ABFJV

Weather: N/A

Description of Operations @ W2 Cap Beam:

ABF

- See Lalit's diary for details on the operations, equipment, and labor for this week.

Office and miscellaneous work:

07/13/09

- Took 8 hours of Furlough Leave (FL) for the day.

07/14/09

- Continued to read the instruction manual for the Leica digital level that was assigned to Dave Wu during the Skyway project.
- Began to review and analyze grouting results for the first phase of tendons stressed at the W2 cap beam.
- Continued to inquire about surveying equipment with people in Caltrans.

07/15/09

- Began to review RFI 1798R01.
- Continued to review and analyze grouting results for the first phase of tendons stressed at the W2 cap beam.
- Continued to inquire about surveying equipment with people in Caltrans. Obtained a 30mm prism which belongs to Pete Sighthaler in the OTD1 equipment closet.
- Continued to inquire about access at the end of Pier 1 on the end of California Avenue on Treasure Island for surveying on the project. Per Erskine's project survey control map there are 3 points on the pier that were set back in 2002.
- Worked on getting Caice VT10.

07/16/09

- Attended the biweekly SAS Safety Tailgate and staff meetings at 8:00am.
- Continued to review RFI 1798R01.
- Continued to review and analyze grouting results for the first phase of tendons stressed at the W2 cap beam.
- Continued to inquire about surveying equipment with people in Caltrans. Obtained two brand new tribrachs from Roberto Luena.

07/17/09

- Fine tuned/adjusted the leveling bubbles on the Nikon automatic level AS-2, Leica DNA10 digital level, and the two tribrachs.
- Pegged the Nikon AS-2 automatic level with the assistance of Dave Bradd.
- Continued to inquire about surveying equipment with people in Caltrans. Obtained a Leica GEB121 battery from District 4 surveyor Richard Erskine.
- Wrote this weeks diary

Inspector:

Matt Bruce *Matt Bruce* Transportation Engineer (D)
