Subject Cube testing for CT 109 Contract 59A0703 

Chris

Spoke to Paul this afternoon. He will be calling you to authorize the application of CT 109 as stated below.

Spoke to Larry who will be calling you as well to arrange for delivery of cubes before delivering.

Thanks for getting this test underway for our SFOBB project as the cubes have not been compressed for almost two weeks.

Chris

I spoke with Paul yesterday. Acknowledge is the agreed cost of \$275 per three cube fabrication and compression tests.

We shall pay the full \$275 for compression only of the three cube tests and agree to prorate in the future 1/3 and 2/3 the cost for one or two cube breaks only.

This e-mail will be enforced upon e-mail acknowledgement by our Contract Manager.

Thank you for your help resolving the application of CT 109 under our contract

I just received the VM from Paul. Once the cubes are delivered, I'll add them to our log and send it to you, Larry, Paul, and Say-Gunn.

Thanks,
Chris

Subject SFOBB samples received by Kleinfelder Lab. EA 04-0120F4

Chris

I have included Pam of the San Francisco Oakland Bay Bridge (SFOBB) project to let her know we are getting the testing underway for cube compression. It is understood the cubes need to be tested as soon as possible as the normally tested due dates have passed.

Also understood, Pam can submit future cubes to TransLab for us to test as we have a process now in place with to your help working with Contract Management resolving the issue of testing under ASTM C 109 for compression only vs performing the cube fabrication and subsequent compression tests.

Thanks also for maintaining the ongoing record of your tests for our labs' benefit.

Subject Samples received

Hi all,

We received 4 sets of 2x2 inch cubes for testing per ASTM C 109 today. The log book is attached.

Thanks,
Chris
