FIELD WORK:

I ran a survey loop with Matt Bruce throughout the day. This took all morning and afternoon to get up to YB8 point. We were 5mm high and had to traverse up steep elevations and through difficult terrain.

REC'D H31 OCT-15 #011219

We began at an elevation equivalent to the elevation of the South – South detour office on Yerba Buena Island, around +11.140m and ended at YB8, around elevation +47m. There were about 19 turning points, which required many setups.
