Equip. #	NO. MEN	DESCRIPTION (Of Equipment or Labor)											
		Traylor Dutra											

Description of Operation:
Erect Temporary Truss and Towers:

FIELD WORK:

Continued to run a survey loop with Matt Bruce throughout the day today. Monday we started at the Army 2 hub, near the South side of W2, and made our way up to a spot in the South-South Detour parking lot. Wednesday we went from that point up to a location known as YB8 near the STOP sign on Macalla rd, right next to the beginning of the USCG walkway, North of the Bay Bridge. Today, this location, YB8, is where we started, and we ended on top of W2, taking the elevations of both copper hubs there. At first look, we were 5mm high at the top of existing E2.

When we shot from W2 to the top of existing E2 it appeared as though we were just 1 mm high. We have yet to go back and close the loop, but since yesterday there has been some construction work on some of the points we used and the points have been disturbed.

REC'D H31 OCT-15 #011220

Moving from first setup near YB8

First point on the deck of the SSD

Matt on South side of existing E2

From W2 back to North side of existing E2
