Wednesday, April 21, 2010

Steve Hulsebus, Bill Shedd, Rob Feather, Karen Wang and I meet with USCG reps, Carl Hausner and David Sulloff, to discuss 1) removal of remaining red/green marker bouys for the alternative channel. The bouys have been very difficult to maintain and boating traffic is using both the main channel and alternative channel. And 2) seek clarification on USCG requirements for navigation aids during the transition of traffic from old bridge to new bridge. The USCG was okay with removal of the marker bouys as they were not a permit conditions.

Attended core team meeting with ABF, which later included teleconference with staff in China.
