ASSISTANT RESIDENT ENGINEER'S DAILY REPORT CCO 106 Skyway Lowering

Location & Description of Operation EB Skyway k-rail reconfiguration was completed yesterday, but on WB Skyway was only partially reconfigured yesterday. This morning ABF completes reconfiguring the WB Skyway from Stage 1 to Stage 2. They are done stacking k-rail at 09:30. Then ironworkers add the wire rope with Crosby clips to all the upper layers of k-rail per the Department's sketch in the ATP letter. Below the WB Skyway, there is some cleanup of the shims and other material left behind when the jacks were removed yesterday. On the deck, ABF cleans up and stacks the left over timbers (8x8's & 12x12's). The plywood from under the Stage 1 k-rail is taken back to Pier 7. ABF loads the portable toilets and eyewash stations into the back of the pickup trucks and takes them back to Pier 7. After the 4½ hrs in this diary on CCO work, ABF's crews do other work not covered in this diary.
