09/20/2012 Thursday Fine

I attended safety meeting and continued organizing shop drawings for as-fabricated drawings processing. I attended weekly tower meeting with Mohammad, Aaron, Mazen, Nhan, Dan, and Mark. Mark brought up the retractable ladder in tower saddle and I told him that I would discuss the issue with maintenance, same as type of lock on covers on façade. Dan said he would organize a demonstration on softer neoprene and adhesive to be used on covers on tower.

09/21/2012 Friday Fine

I checked on CCO 93 and response to RFI 2202R00 on details for saddle ladder. Some information seems like missing in the details. I visited tower with Mohammad to look at the ladders at tower head.
