Subject Fw: Dacromet Fastener Assembly Testing

The testing Tuesday morning is delayed a little. Salim and Rob are coming in a little late today and there will be some pre-testing planning first thing in the morning. It looks like testing in the warehouse will start about 9am. If anyone needs an update on when it actually is starting, call me at 510-774-6276.

Subject Dacromet Fastener Assembly Testing

18 pallets of fastener assemblies from LeJeune arrived today Monday 6/22/09 at ABF. The fastener assemblies are in boxes on the pallets rather than the usual kegs for larger quantities of components from the same lot. Attached is a few photo of the pallets/boxes. We are waiting for Rob Bomsta from LeJeune to arrive and then these pallets/boxes will be sorted for the testing. Signature curve testing will start tomorrow morning Tuesday 6/23/09 a little after 7am.
