Friday 2012-10-19

Clive Endress and I looked at the two handrail base plates that have been caulked and painted. He says they are acceptable. He did ask that a little more effort be put into masking to keep a clean line where the paint meets the polyester surface, but acknowledged the surface roughness there will make it difficult. For the record, it is understood that this mockup was done quickly to get something to look at. It will be removed and redone because some of the time requirements for curing of the caulk were not followed, but perhaps we can do some other locations and mark one of those as a new reference standard

Certified Coatings prepared samples of traveler decking per METS request, see extra work bill attached.

Worked on traveler transport details, and progress pay estimate.

Sunday 2012-10-21

Travel to LA to observe traveler transport from Westmont to the port of Long Beach.
