Week of 04/15/13-04/19/13
04-0120F4

04/15/2013 Monday Fine

I attended staff meeting. I forwarded an electronic copy of floor slabs repair work to Brian Petersen of ABF as requested last Monday. Brian requested design criteria for the repair work before he would comment. Information from PB was forwarded to Brian.

04/16/2013 Tuesday Fine

I reviewed the repair work for the floor slabs, which was partially removed for foundation investigation. I noticed that some dimensions shown on the plans don't match with what is on the field. I sent my comments to Karen Wang. Mark MacDonald asked for the progress of DJV's response to Dutra's proposal. I forwarded a copy to Ade and asked DJV to respond as soon as possible.

04/17/2013 Wednesday Fine

I started reviewing submittal 2844, Installation Plan and Temporary Support Details and Calcs, for precast fender installation. I reviewed unchecked design plans for IERBYS TEMPORARY IMPROVEMENT-SITE.

04/18/2013 Thursday Fine

I attended safety meeting. I continued reviewing unchecked design plans for IERBYS TEMPORARY IMPROVEMENT-SITE.

04/19/2013 Friday Fine

I finished reviewing unchecked design plans for IERBYS TEMPORARY IMPROVEMENT-SITE and e-mailed my comments to Karen Wang.
