Work description.

[checkbox]

Field Work:

Abbas and I went to Pier 7 at 1pm. The weather was cold (50 degrees) and windy. On lift 2W, two workers were installing u-rib splice plates at field splice 2 using a manlift with ID # GY052622. The resurfacing at field splice 2 appeared complete. On lift 3W at field splice 2, John and Henry were supervising two other workers who were prepping the joint edges to remove any rust and paint before welding.

Office work:

- 1. Made a chart for appeared that shows the status of the punchlist for Voyage 1.
2. Created draft letter for submittal1006R09.

Hours Worked: 9 hours total including 1 hour OT.

I met with Lauri (ABF) at her office across the WDC to verify if the list of the workers and their hours was available for me to pick up. Another ABF representative told me to go to John C. (ABF) and ask him about the workers hours and that Lauri does not handle these issues, he indicated that she was too busy to provide that information to me. I went to John's office and he was not there. I informed Tai and Gary of the matter. Tai indicated ABF is not giving information on the workers hours to Pier W2 operations as well as Pier 7.

Given that Contractors, Sub-Contractors, Laborers and field personnel work hours are not being provided to Abbas and I in the field by ABF, work hours from these workers will not be provided in my diary. Tai-Lin is aware and asked us to submit diary as is.
