General Comments

Tai-Lin Liu; Diary on 04/15/10, Thursday – Sunny Day (around 58 – 68 F)

-Arrived Burma Road office at 7:00 am. Checked Gary's e-mail for the coming schedule for the second shipment - still in the same schedule to arrive Pilot's Buoy at 10:00 am of 4/18/10. Started studying Sub. # 1538R0 – OBG Erection Engineering Lift 12-14. This is a big submittal, total of 85 pages involving lots of calculation and work sequences. We are still waiting for TYL's comments.

-Review team temporary works meeting minutes (for April 8, 2010) and meeting agenda for afternoon TT meeting at 3:00pm. Three submittals: #1529 (W2 closure pour erection plan), #1538 R0 & #1540 for erection plan (box girder) – crossbeam connection pinned alternate will be discussed today. Another two RFIs: #90R1 – Slide Support Pad Clarification – Lift 7-11 & #97R0 – OBG lifting lugs – change weld request also to be discussed this afternoon. Approved daily diaries for field inspectors. Continued clean the e-mails.

-Attended TT meeting at WDC from 3:00 to 4:15 pm. For W2 closure pour erection plan (Sub. 1529), Matt Bruce will close on tomorrow morning. ABF want CT to close Sub. # 1538 on 4/22/10, TYL said that this submittal is complicate probably might need more time to review it. TYL also has a comment and KCB need time to resolve it. For submittal 1540, TYL did not concentrate to review it. It might wait for #1538 to finish then work on it.

-Wrote my own diary and cleaned Lotus Note space. Talked to Jason / Lalit for field operations. Left office at 4:30pm.

* Worked 1.0 hours OT today (04/15/10, Thursday)
