Dispute

Work description.

- Attended weekly staff (OBG) meeting at 9:30am. Discussed closure pour issues related to high early strength concrete and mitigating the potential locked-in stress at this joint.

- No work to my knowledge was done today by ABF or CMC-RS at the W2E closure joint.

- Prepared for Cemex trial batch tests of modified SCC mixes scheduled tomorrow morning at 5:30am throughout the day.
