**General Comments**

ITEM 55 FURNISH STRUCTURAL STEEL (BRIDGE)(BOX GIRDER);  
HIGH STRENGTH FASTENER ASSEMBLY PRE-INSTALLATION TESTING:

For ABF, engineers Sabrina Levine and Chris Bausone are present for sampling and a test fit in the Skidmore. For CT, Bob Brignano is present for the sampling and test fit in the Skidmore. Work happens at Bolt Testing Conex ABF ID 002079 with Skidmore Model HT 4000 ABF ID 000612 in the warehouse. The sampling and test fit happen between 1630 and 1700. Two (2) rocap lots (M30) are sampled and test fit in the Skidmore for planned testing tomorrow to determine the inspection torque from the bolt head. The lots are M30x80 and M30x85. This material is planned for the bikepath cantilever beams connections to the OBG's.
