General Comments

- * Generate response to Submittal 1637
- * Coordinate response to ABF regarding the access platform being left inside of Crossbeam 1. Since it can not fit through the available holes, it will have to be cut. They are wondering if there is a local galvanizing shop that this re-galvanizing can be performed.
- * Review U-rib offset data.
- * Worked on Staff Central input information for Safety.
- * Field visit to observe fitup and bolting operations.

Accrued 2 hours of overtime covering the Contractor's operations.
