Work description.

CONCO Crews activities:

CONCO crews continued installing the forms around the West line saddle using pre-shaped lumbers. The crews were able to complete the East side and part of the bottom form as shown in the pictures.

NOTE: ABF crews have used torch in removing some of the brackets under the deviation saddles. The remained bolts do not have a good appearance as is shown in the pictures and should be fixed. Rusting of these bolts will damage the concrete surface of pier W2.

CONCO Crews:

- Gary Pene
- Jasmin Goranyac
- Salvador Aldana
