•Finalized response for SUB 2574R00 – Hinge K Closure Pour Deflection Monitoring Plan
•Gathered information and pictures of the CCO 140 Heavy Vehicle Simulator testing and sent it to Dena Joseph so she knew where the sample pieces of the Trelleborg were from and what they were used for. Last week Ric Maggenti had a couple pieces removed and sent up to the Lab in Sacramento for analysis on how the pieces "failed." It should be noted that "failure" happened during over-loading of the unit with loads approaching 2.5 times regular service loading.
Accrued 2 hours of overtime covering the Contractor's hours of operation.
