DIP paint repair 001 0-DIP-ALS.045
 On 4-5-2012, Bill O'Sullivan informed me that the 30% of the DIP that is at Pier 7 and has not been incorporated into the work will be shipped up to the ABC facility at Mare Island for the paint repair specified in our earlier letter. A TL 38 has been processed with METS. I discussed this with Nicoli Hvass, METS, and he would make sure the pipe was green tagged.
 At approximately 1500, I went to location where the pipe was stockpiled and observed it had been green tagged.
