Cable Prep Work

Brian Boal asked me to stay in the office today.

I spent the day doing office work, including:

- I continued the review of ABF Submittal 2505R02 (Cable Band Installation).
- I prepared for Cable compaction field work (assembled one of the new calipers for measuring Cable diameter, started to convert the caliper that was used for measuring strand adjustment back into a regular caliper, & made some practice measurements on the Cable mock-up).
- I searched PMIV & read recent Cable submittals & RFIs.
- Other misc work (checked email, vehicle mileage log, etc).
