Work description.

Inspector: Victor Altamirano
Date: 053012

Field Work –

Workers began installing suspenders on south main span. I was taking pictures of the south main cable between the cable band halves to show the wires. I took pictures from the top and bottom of the CB from panel point 52 to panel point 68. Then I did from panel point 92 to 110.

Workers finished tensioning the CB up to panel point 110.

Workers were installing suspender ropes at PP 92-south.

Office work: Worked on diaries.
