General Comments

From 0600-900, I performed general SAS office duties. From 0900-1500, I worked in the field on the cat walk taking over for Loraine on the Cable Band inspection. I measured the cable circumference and the four point cable band gaps after the iron workers re-tensioned the bolts. Refer to the field notes for the data. Loraine has the notes in hand. From 1500-1730, I worked on general SAS office duties.
