Dispute

General Comments

At 0300 in the night, I worked with Doug and Matt on the SAS cable. I assisted them in acquiring data for the South Main Span and the North Main Span. We acquired the translation and rotation difference from the swing out operation. Field Notes are in the hands of Doug. Refer to his notes for details. I worked in the field from 0300-0900. Then, in the office from 0900-1430.
