Work description.

Field Work:

(1) I conducted a tour in the morning of the North Main span by taking a group up the catwalk to the Tower Saddle.

(2) During the tour, I saw Tony Costa's crew was cleaning out the threaded holes on the tower saddle. Refer to Sami D. and Bob Brignano for details.

Office Work:

(1) Reviewed my email correspondence.

(2) I worked on a pdf for Roman G. (CT) showing the cable band gaps at PP 34 South. I took some pictures on last Friday and showed the photos to the cable leads. Roman plans to use this pdf for the CAT meeting tomorrow. I shall finalize the pdf tomorrow.

My hours worked: 8 hours total.
