SAS Bike Path

I got a call from Caltrans Engineer Thanh Lee that bike path beam PP 121 fell in to the water during erection process. ABF safety officer Barry said all three ironworkers on this operation said test left was done and the rigging was done correctly, but the steel beam hit the OBG during installation and slip out then fell in the water. This happen at 9:30 am Caltrans safety officier Grady Hart came and conduct his investigation.
