<b>General Comments</b>	
There is work in the field today, but no inspection by me today.	<input type="checkbox"/>
CCO 278, PP78S DOWNHILL REPLACEMENT SUSPENDER:	
The PP78S Downhill replacement suspender arrived on site and was unloaded yesterday at the Pier 7 yard/warehouse area. Today, ABF's Pier 7 yard/warehouse laborers (likely Laborer Foreman Everardo Herandez and/or Laborer Ignacio Garcia) cover the suspender with black visqueen for protection because the suspender is being stored outside. I did not inspect this operation, but I could verify later that it had been done today.
