General Comments

CCO 314, SAMPLING AND TESTING A354 GRADE BD MATERIAL:

There is no work in the field on this operation today by ABF. The Townsend Test (Test IV) for TR's 18 & 19 is complete and cleanup is in progress. ABF is working in the field today (but not at the Pier 7 warehouse area) on other operations this Saturday – at Tower and OBG. The other operations are not covered by this diary.

INSPECTOR OT REMARK:

Office 8 hours: I am at work between 0900 and 1730. ABF is not working in the field on CCO 314. I am in the office for various work related to A354 Grade BD bolts and rods, including updating summaries from the Townsend test for use in the A354 Grade BD Final Report and reviewing EWB's for the estimate due next week.
