Weather

Temperature 7 AM 12 PM 4PM
Precipitation Condition partly cloudy

Working Day If no, explain:

Diary: Dispute

General Comments

Weather note: It is cloudy during the day. Prior to the start of the shift in the early morning, there are light rain showers at the Pier 7 warehouse area. There is no rain during ABF's scheduled shift hours. There is no collection or pond of rain water at the test rig area because the previously intentionally plugged DI was restored recently – the restored grating over the DI has filter fabric.

CCO 314, SAMPLING AND TESTING A354 GRADE BD MATERIAL:

There is no work in the field on this operation today by ABF. The Townsend Test (Test IV) is complete and cleanup is in progress. Crews at the Pier 7 warehouse are working an 8-hour shift 0700 through 1530. ABF is working in the field today on other operations. The other operations are not covered by this diary.

INSPECTOR OT REMARK:

Office 2 hours: ABF is working a shift at the Pier 7 warehouse area between 0700 and 1530, but I am not in the field today. I am in the office for various work related to A354 Grade BD bolts and rods. I work later in the afternoon on A354 Grade BD issues, including reviewing EWB's due later this week. My shift is 0700 to 1730 and my OT is 1530 to 1730.
