**General Comments**   
No inspection because I took the day off to serve as a precinct inspector for the General Election. Sam Patel inspected the work to install caps and attaching chains on the CA and DW utility outlets along the IB barrier of the EB bridge and IB and OB barriers of the WB bridge.

Bill O'Sullivan and Scott Yeager installed caps and attaching chains on the utility outlets of the CA and DW lines along the IB barrier of the EB bridge and IB and OB barrier of the WB bridge. These were replacements for the caps which were lost and misplaced during the various activities and operations along the bridge following the installation of the pipe.  
  
Sam Patel inspected the work and sent an email certifying that all the caps and chains had been installed along the lines.
