NOTE: Monday, 9-3-12, was a State holiday.

9-4-12: I arrived at the jobsite at 0945. During that time, the Contractor was continuing to perform jacking operations on the north cable for Step 1b. They completed Step 1b at PP94, then broke for lunch. I returned to the office at 1215 and remained there for the rest of the day.

8 regular hours, 0 OT.

9-5-12: I arrived at the jobsite at 0945. The Contractor was continuing to perform jacking operations on north cable for Step 1d. They completed jacking at PP70 & PP94, then broke for lunch. I inspected these operations with V. Altamirano, J. Lyons, and F. Carpio. I returned to the office at 1215. In the office, I worked on modifying and updating the Load Transfer summary worksheets and discussed them with R. Granados and B. Boal, and I also discussed upcoming field operations with R. Granados.

8 regular hours, 3 OT (1600-1900).
