Item	Title	Detail
1	Major component movement	QA observed mechanical testing of PQR test plate HP-2006107-10, 1G FCAW. The testing appears to comply.
2	Key conversations	ZPMC Testing Department Director Mr. Liu Liu informed QA that their documentation of the Weld Procedure Qualifications (PQR) was complete and he would like QA to review to confirm their accuracy and compare with QA records. QA informed Mr. Liu Liu that such documentation should be reviewed by the Contractor, ABF, prior to any review by Caltrans. Mr. Liu Liu stated he would have ABF review the documents, but did not know when that would take place as no ABF representatives were on the island today.
