Item	Title	Detail
1	Meetings attended	<p>At 1:30 pm, we conducted the daily technical issues meeting prior to the daily stand-up meeting. ABF/ZPMC asked about the possibility of bending the diaphragm flange plates for the tower mock-up at Changxing Island instead of at the Wuxi Boiler facility. They stated that they would like to have both the Changxing Island and Wuxi Boiler facilities available for bending the flange plates for the mock-up and for production. We told them that we would address the issue internally and respond at a later time.</p> <p>ABF/ZPMC asked about the interpretation of the tolerances for heat straightening of stiffener flanges. A heat straightening request was submitted by ZPMC, and we said that we would address the issue when we receive the HSR.</p>
