Item	Title	Detail
1	Other important observations	The primary focus of the day was to develop a new repair tracking procedure for capturing information that is critical to the Engineer with regards to quality of the tower mock-up. A shop floor walkthrough at 08:00 revealed that ZPMC was conducting UT testing and making preparations for repairs on stiffeners of the 114-m mock-up section. There was no activity or changes observed in the OBG deck and bottom Panel fabrication bays.
