| Item | Title | Detail |
|------|------------------------------|---|
| 1 | Other important observations | I conducted a shop floor walkthrough at approximately 08:00. ZPMC was observed performing welds to assemble the diaphragm for the 89-m tower mock-up section. ZPMC was observed performing drilling of bolt holes for the T-stiffeners of the OBG bottom and side panels. ZPMC was observed marking assembly control and stiffener fitting lines on the OBG bottom and side panels. It was observed that ZPMC had moved material that had been cut for OBG floorbeam fabrication was moved into Fabrication Bay #7. |
| 2 | Other important observations | ABF/ZPMC completed visual inspection of the closed rib panel from the second closed rib weld trial. ABF turned the panel over to CT for inspection. At the 13:00 ZPMC Daily Meeting, CT inquired if ABF has accepted the weld trial since it was turned over to CT for inspection. ABF stated that they will discuss the findings with ZPMC later and that they will inform CT of the decision on Monday, 05-Nov-07. |
