Item	Title	Detail
1	Other important observations	At 1000 hours Dr. Mazen Wahbeh and I met with ABFJV and ZPMC QC personnel to perform the facility tour portion of the MFSQA. The purpose of the walkthrough was to evaluate ZPMC's ability to conduct heat bending of the diaphragm flange plates for the tower. Dr. Wahbeh and I toured the facility with Steve Lawton, ABFJV Foreign QA Manager and Lu Jian Hua, ZPMC QC Manager for the SAS. Details of the facility walkthrough can be found in the SMR report. ZPMC was given a "PASS" contingent on getting equipment calibrated prior to the start of work.
2	Meetings attended	I attended the Weekly Fabrication Update Briefing teleconference at 0900.
