Subject: Response to Caltrans State Letter #5.03.1-007736, DTD 05/09/05
KFM NCR #134

Mr. Hegarty & Mr. Bienek,

Universal Structural, Inc. has received Caltrans State Letter #5.03.1-007736, dated May 09, 2005. Caltrans stated:

"KFM's quality control manager and onsite representatives allowed USI to weld grout pipes without removing the inorganic zinc primer from the area to be welded."

USI removed the tack welds that were in question and then completely removed the paint from the weld joint and adjacent surface. Even though the total area affected was small in area, the fact remains that this occurrence was totally unacceptable. After the area was prepared properly, the tack welds were re-installed in an acceptable manner. The welder responsible was properly counseled in the proper way to clean/prepare an area before welding. Due to the fact these tacks and paint was removed prior to finish welding, this incident was addressed and no non-conformance occurred.

Please review and submit to Caltrans for a letter to close this NCR. If you have any questions or need further clarification, please contact me at your earliest possible convenience.

Sincerely,
Universal Structural, Inc.

Subject: KFM/USI NCR No. 121: Failure to Remove Inorganic Zinc Primer from Welded Areas

Dear Mr. Skoro,
Attention: Mr. Rich Bienek,

This Non-Conformance Report (NCR) is issued by the Engineer to KFM as a result of your supplier, USI, for the following reason:

- 1. KFM's quality control manager and onsite representatives allowed USI to weld grout pipes without removing the inorganic zinc primer from the area to be welded.

This NCR will be tracked as KFM/USI NCR No. 121. USI was verbally notified of this NCR by Caltrans' METS on 05/04/05. Please review and address how you plan to resolve this NCR and bring your work back into compliance with our contract.

Should you have any questions, please contact David Wu at (510) 622-5104 or Patrick Lowry at (858) 344-2712.

Sincerely,

David Wu
