On this date, Caltrans Quality Assurance (QA) Inspector Mr. Danny C. White (B89) was present at Oregon Iron Works (OIW) for the purpose of monitoring fabrication and welding operations of the Hinge K Pipe Beam at the OIW fabrication and welding shop in Clackamas, Oregon.

The QA Inspector was informed by third party Quality Control (QC) Inspector Mr. Don Cox that he had accepted the results of Dye Penetrant Test (PT) performed on the flux core arc welding (FCAW) and gas tungsten arc welding (GTAW) stainless steel overlay repair procedures. The QA Inspector randomly examined the above mentioned items and observed the items appeared to be in conformance with contract requirements. Please see photo on the left below for additional information.

The QA Inspector performed random observations in the fabrication shop in bay #1 and observed Mr. Scott Jones was setting up for machining operations on the base-plate component marked as a109 1-d for this job. Please see photo on the right below for additional information.
