	<b>University of California Transportation Center</b>	<b>Research Support</b>																																		
001	Goods Movement and Industrial Land Supply	Planning/Policy/Programming																																		
002	Accounting for Interregional Travel in Regional Land Use and Transportation Plans: A Comparison of Attribution Methods	Planning/Policy/Programming																																		
003	An Evaluation of Signalized Intersection Safety Using Centrac System	Transportation Safety and Mobility																																		
004	UCLA ITS Tech Transfer Program	Planning/Policy/Programming																																		
005	Congestion-responsive On-ramp Metering: Before and After Studies Phase I	Transportation Safety and Mobility																																		
006	The Impact of the Sharing Economy on Latent Individual Modal Preference	Planning/Policy/Programming																																		
007	Towards Inferring Welfare Changes from Changes in Curbside Parking Occupancy Rates: A Theoretical Analysis Motivated by SFpark and LA Express Park	Planning/Policy/Programming																																		
008	Balancing Life-cycle Cost and Life-cycle Impact Considerations in Pavement Management	Planning/Policy/Programming																																		
009	Traffic Volume and Aggregate Economic Activity: Implications for Taking the Pulse of the U.S. Economy	Planning/Policy/Programming																																		
010	Business Establishment Survival and Transportation System Level of Service	Planning/Policy/Programming																																		
011	Investigating Relationships Between Highway System Performance and Transit System Management	Modal																																		
012	Spatial Transferability Using Synthetic Population Generation Methods	Planning/Policy/Programming																																		
013	CTM-based Optimal Signal Control Strategies in Urban Networks	Transportation Safety and Mobility																																		
014	HOT Lane Calibration and Simulation Algorithms	Transportation Safety and Mobility																																		
015	Professional Planner Workforce Development Training Program	Planning/Policy/Programming																																		
016	An Activity-based Toolbox for Planning Applications with Special Relevance to Transit	Planning/Policy/Programming																																		
017	A Unified Framework for Analyzing and Designing Signals for Stationary Arterial Networks	Transportation Safety and Mobility																																		
018	Infill Dynamics in Rail Transit Corridors; Challenges and Prospects for Integrating Transportation and Land Use	Planning/Policy/Programming																																		
019	Identifying and analyzing the relative advantages and disadvantages of public-private partnerships and traditional delivery for transport projects	Planning/Policy/Programming																																		
020	OHV Fuel Tax Study	Planning/Policy/Programming
